Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step 1: Select the Problem Statement

Movie ticket booking can be inconvenient when movie discovery, showtime selection, seat availability, and booking history are not easy to manage in one place.

Step 2: Brainstorm and Group Ideas

Idea	Group	User benefit
Movie catalogue with search and genre filtering	Movie discovery	Find relevant movies faster.
Featured movie and movie details	Movie discovery	Understand the movie before booking.
Date and showtime selection	Booking flow	Choose a convenient screening.
Seat selection and availability checks	Seat booking	Reduce confusion and avoid selecting seats already booked for the same show.
Account registration and login	Account access	Associate bookings with a signed-in user.
My Bookings page	Booking management	Review previous bookings and their details.
Online payment gateway	Future enhancement	Could support real payments; not implemented in the current version.

Step 3: Prioritize Ideas

Priority	Feature	Reason / current status
High	Authentication and movie browsing	Core access and discovery features are implemented.
High	Showtime, seat selection, and booking confirmation	Core ticket-booking workflow is implemented and tested.
High	My Bookings and seat availability	Implemented and included in the user's workflow tests.
Future	Payment gateway, cancellation/refund flow, and notifications	Not implemented; potential future enhancements.
